ART

DISPLAY YOUR TREASURES

Art is one of a kind when it comes to stability. Few other shelves can stand on its own like Art. It doesn't have any cross braces to disrupt the clean look but is yet completely steady. The shelves are beautiful in their appearance and are suitable as a room divider. It is also a good display location for your treasures.

The sides and feet are made of solid, oiled oak and the shelves are made of 19 mm chipboard lacquered in high-quality white paint. The oak does not only make it a strong construction, but it also allows Art to age beautifully.

Scandinavian aesthetics

Simple, aesthetic and functional are the guiding principles that have shaped the expression of Scandinavian design - light and airy spaces.

Design by: Tenzo Design studio

This product is designed by Tenzo Design studio. With nearly 90 years of experience in design and construction we have knowledge about manufacturing contemporary Scandinavian furniture to a broad international market.

Stability

Art is a unique example when it comes to stability. The shelves stand stable without any support other than their solid oak edges and can be placed anywhere you like. No cross braces are needed.

Solid oak

The sides and feet of Art are made of solid, oiled oak. Besides making a strong construction, it also allows the shelves to age beautifully.

BESS

SCANDINAVIAN RETRO

Bess is a collection of modern Scandinavian design intertwined with the classic appearance of the 50's. It is a collection of design simplicity, where the details are made with a "less is more" mind-set. The legs are fixed in a steady solid oak frame that keeps the furniture from slouching even if you put weight on it. The solid oak is recurring in the handles which is a small element that defines the typical appearance of Bess.

Bess is the perfect furniture collection for the home that wants to add something with a genuine style and character, but don't want the looks of one piece to take over the room. Add something out of the ordinary, exciting simplicity in its purest form.

BESS

o o o o

Simplicity

The simple lines of character are what define the Bess collection. The legs are elegant and they are a perfect example of design from northern Europe. Bess proves that furniture doesn't need to be complicated to be beautiful.

Made in Sweden

Our production facilities are located in Smålandsstenar in the south of Sweden. We have high quality standards and the quality of the furniture is always inspected before the furniture is shipped.

Attention to details

The details of Bess are small and clean but is something out of the ordinary. Balance is created when the oak from the leg is recurring in the handles. The handles are also what sets the tone of Scandinavian design.

Design by: Rutger Andersson & Jurij Rahimkulov

Rutger Andersson is an excellent designer of "less is more" and he doesn't embellish his creations with unnecessary decorations. Jurij Rahimkulov has a past as an interior designer in Moscow. The combination of aesthetic and architecture makes them a great designer duo.

Wall-hung

Bridge is constructed to hang on the wall and is easily attached with screws. The shelf is neat and discrete but has a lot of space.

Adjustable shelves

Bridge makes it easy for you to be flexible and to change your mind. The shelves are easy to move around into new positions.

A new combination can give a whole new appearance and of course all shelves will be fastened safely into the uprights when finished.

The shelving system gives you many options of style and expression.

DOT

DESIGN SIMPLICITY

Dot is a collection of design simplicity: clean and Scandinavian design. The details are carefully crafted to catch your eye and create an exciting piece of furniture.

The designer Måns Broman has polished and refined Dot many times to find the perfect look. It took more than two years to finish his work. The result is exquisite and designed into every last detail. Nothing has been left to chance. Tapered, turned legs and push-to-open function add to the absolute design. The quality is ensured by Tenzo's high production standards and the furniture will last for many years to come. Dot is the perfect mix of high quality, great design and functional storage.

DOT

Details

The dots instead of handles are nicely shaped into the mdf fronts and create a clean overall look. Solid oak legs in combination with oak veneer tops form an attractive frame that highlights the design of the furniture even more.

Push to open

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

Made in Sweden

The technical knowledge and sense of design from Tenzo pursued the development, from idea to production. The creation process of Dot is genuine and precise. Tenzo has got high-quality standards and the furniture is always inspected before it is shipped.

Design by: Måns Broman

Måns Broman is a Swedish designer who's creativity has spawned numerous designs and earned him an Elle Design Award. Dot is one of his many creations.

LIPP

SLEEK AND GRACEFUL SHADES

Lipp is a contemporary furniture collection inspired by the Scandinavian design heritage – minimum fuss, just simplicity that allows each piece to speak for itself. The subtly integrated handles are the focal point that defines the collection's character. Elegant metal legs give the collection symmetry and its harmonious no-nonsense look. Lipp is a furniture collection suitable for every contemporary home interior enthusiast that loves graceful colour shades.

The sleek design is combined with Tenzo's mature and matt colour collection in 2020 "The forest is our backyard" – a serene and grounded colour palette inspired by the natural environment surrounding Smålandsstenar, Sweden – the place where the Tenzo story started in 1934.

MALIBU

MALIBU® - THE ORIGINAL SINCE 1998

The rebel. In the '50s and '60s many young people broke free from the traditional social norms, wanting to release from their parent's generation. They didn't want to follow the old standards but aimed to express their individuality through music, fashion and cars. New subcultures emerged, such as Rock n' Roll and Surfing which let the young people enjoy their freedom and show their personality.

Malibu is young, rebellious and colourful! The range is inspired by the styles and ideas of the youngsters from the '50s and '60s. Rutger Andersson has created a colourful retro design, bringing the feeling of that generation back to the presence. The contradiction of modernity and retro design makes the furniture timeless but unique.

MALIBU

o o o o

The original

The Malibu® collection from Tenzo has been on the market since the late '90s, and is still going strong. It's an original collection that is well-known for its colourful variations and trendy way of resembling retro living.

Details

The feet and handles are made of shiny nickel that enhances the design of the product. The nickel is neutral and allows the eye to give its full attention to the shape and colour of Malibu®.

Colourful eye-catcher

The Malibu® collection has a large variety of colours. One for every taste! Some models have up to twelve colours and go well with other products from the Tenzo range.

Design by Rutger Andersson

The well-known and experienced designer and product developer Rutger Andersson is excellent at "less is more". His touch makes any product live up to its full potential. In his portfolio you will find a lot of successful designs, Malibu® is just one of them.

MELLO

CONTEMPORARY AND TIMELESS

Furnishing is not just about creating a look – it's about making a place where you and your personality belongs. The Mello storage collection allows you to create the perfect space to reflect you and your lifestyle.

The Mello furniture got a pure look with its lacquered body and fronts. The black metal legs reinforce the feeling of a contemporary furniture range with clean lines. To add style, the handles are crafted with an inset that creates a pale shadow and gives Mello its character. The thoughtfully designed details got an attitude to catch the eye, and make Mello a timeless classic.

MELLO

o o o o

Design by: Tenzo Design studio

This product is designed by Tenzo Design studio. With nearly 90 years of experience in design and construction, we know about manufacturing contemporary Scandinavian furniture to a broad international market.

Contemporary and timeless

Mello is designed to connect with the Scandinavian design heritage – clean lines with no fuss. The appearance of Mello is both contemporary and timeless.

Details

The black metal framed legs and the black handles create contrasts and give Mello an interesting look. The handle is crafted with an inset that makes this furniture exclusive. The details are designed with a reflection for creating a collection that makes an impression.

Made in Sweden

At Tenzo, we design and produce modern, high-quality furniture. Our production facilities are located in Smålandsstenar in the south of Sweden.

PATCH

SIMPLICITY & ELEGANCE

The product may look simple at first glance, but the closer you look, you'll see that behind both design and production lie hours of work. Each base is made in solid oak which allows the legs to have its characteristic form, a detail that expresses northern design and harmony.

All doors and drawers are equipped with a push-to-open feature. The clean lines appear clearly when no handles are needed. The appearance of Patch is a delight to the eye; especially for those who appreciate symmetry. Yet the symmetry is something out of the ordinary - the legs are made with a graphic twist that highlights the unique cut that is characteristic for Patch.

PATCH

o o o o

It's in the details

The legs of Patch are something out of the ordinary. They are made of solid oak and have a unique cut that is a characterizing design detail. Every line and chamfer is thought through and truly makes Patch a work of art.

Design by: Thomas Eklundh

Thomas Eklundh finds inspiration for a new design in almost everything, but mainly in film, art, and literature. With the ambition to make the everyday a little more exciting, he places great emphasis on both ideas and handcrafted details.

Push to open

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

Added value

On all Patch items, it is possible to choose a top in oak instead of white lacquer. That makes the oak from the leg recur in the top plate. This way the oak creates an artistic frame which adds another highlight and brings sophisticated symmetry to the product.

PLAIN

ENDLESS POSSIBILITIES

Plain is all about expressing yourself. The module system gives you endless possibilities to design your dream sideboard. The design is timeless with its elegance and simplicity, the appearance follows the traditions of Scandinavian design – absolute style with minimum fuss. The sideboards have a genuine feeling with top and fronts in lacquered mdf. Some bases are also available in a wood structure. The materials, clean lines and colours are a meeting between contemporary design and Swedish nature.

The system is designed by the Swedish designer Monika Mulder who aims to create functional objects that are playful and pretty. Plain is great storage, beautiful design and a playful way to build your piece of furniture.

This product is designed by Tenzo Design studio. With nearly 90 years of experience in design and construction, our area of expertise is modern, high quality, colourful furniture with a genuine Scandinavian touch.

Details

The corners of Svea are carefully crafted to give the products a fashionable look. The doors are softly bordered on the edges that are pushed out over the doors.

Made in Sweden

Bodies, fronts and table tops are made of lacquered mdf and made in Sweden. The handles, legs and the decorative rail are all made of solid oiled oak which, combined with lacquered parts, give Svea the typical Scandinavian look.

Soft close

The hinges of Svea are integrated with soft-close and the drawers have a smooth self-closing function. The soft close catches the doors and drawers and makes it close slowly, silently and softly.

UNO

WE KNOW. DO U NO?

We know that your home is designed by you. For everyone who likes interior design with a playful touch, we present Uno. The products of Uno are designed to be used in any room for any function – your imagination is the limit. The designer of Uno, Olivier Toulouse, says: “Use it with liberty!”, the owner is free to choose the utilization of the product.

The mature colours of the Uno collection are suitable for any modern home that wants to have a trendy impression. We know it, soon you will too.

UNO

o o o o

Details

The U-shaped handle is a fun addition to the otherwise simple design. It is the element with a big E and the thing that makes Uno special. The colours are carefully chosen to give a mature but yet colourful appeal.

Made in Sweden

At Tenzo, we design and produce modern, high-quality furniture. Our modern production facility, located in the south of Sweden, allows us to provide furniture collections in a wide range of colours.

French design

The French carry an air of sophistication without looking like they've made the effort to do so. Naturally, this influences the interior design with an exquisite appeal and unconcerned aesthetic. France has a long, genuine history in design and their reputation is widely known and beloved.

Design by: Olivier Toulouse

Design says something about who you are. That's why Olivier Toulouse is inspired by people. By watching humans, new designs emerge.

UNEXPECTED STORAGE

Z is a simple, yet versatile shelf – just turn it 90 degrees to create a new look. The clean proportions and simple geometry celebrates the Nordic design and the edges are nicely rounded to contribute to a soft and classic style. Unexpected storage that suits all spaces in your home and furniture with timeless elegance.

The Z modules can be turned and hanged in two ways, so the tiers create a nice pattern. Use as a single or make your own shape with several Z cubes. It is the perfect piece of furniture to be creative with. With Z, it's easy to change the styling of your home, just change the decoration and you get a new feeling.

Z

o o o o

Assembled

The Z cube is one of our more exclusive products and is delivered assembled. Just attach the furniture to the wall, and start to decorate and design your home.

Multifunction

The Z cubes can be turned in two ways to create a nice pattern. The wall fittings are adjustable to facilitate hanging the shelves side by side. The shelf also comes with four adjustable feet and can be placed on the floor. Oak coloured legs can be added as an extra accessory.

Design your wall

Z is a shelf module system with endless possibilities. Choose a stand-alone shelf, a full wall, or make your own creative pattern.

Design by: Tenzo Design studio

Established in 1934 as a local wood furniture producer, Tenzo is today an international company that specializes in modern, high-quality colourful furniture with a genuine Scandinavian touch.

The image shows two modern armchairs with a deep green, textured fabric upholstery. They have a curved, ergonomic design with wide armrests and are supported by four thin, black, tapered legs. The chairs are positioned on a light grey, low-pile carpet. In the background, a wall with a repeating geometric pattern in a light beige color is visible, along with a portion of a light-colored wooden floor on the left. A dark rectangular box in the upper right corner contains the 'tenzo' logo in red.

A SPARKLING COLOUR MIX

Harry is both fresh and elegant. The furniture design creates contrasts – soft rounded corners with black metal framed legs give the pouffe and the sofa the best of two design styles. Transform your interior to a sparkling colour mix or choose subtle colours for a calmer Scandinavian look.

Harry makes an impression as a single piece of furniture but can also be an eye catcher if you mix them together. Harry is the obvious choice when making an addition to any room that needs an elegant seating place. Harry is covered in durable fabric in a range of colours. The pouffe can be used as a footstool or as an extra seat. Furnish your home with Harry and it will pop!

ENDLESS POSSIBILITIES

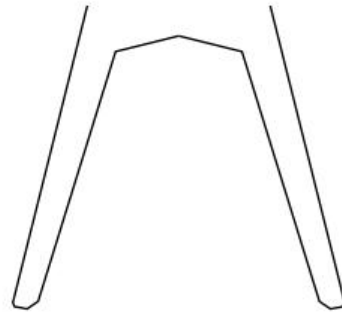

C-bar is a collection of seats, legs, and tabletops with a large variety of possible combinations. Every seat and tabletop fits perfectly with every leg - the design is yours to make. The chairs and tables are a welcome addition to any dining area, living room, or any other room in your home where classy design and comfort fit in. The chairs and tables have a sturdy construction and there is a look for every taste. C-bar is developed by Tenzo in collaboration with Swedish designers.

Tenzo always strives to give our customers high-quality furniture. Tests for strength and stability according to EN-12520 and EN-1022 have been made for C-bar dining chairs.

C-BAR

COMFORT BY DESIGN

Design your unique furniture – mix seats with the legs you prefer. C-bar gives you almost endless possibilities to create your own chair, bar chair, or table.

The collection is always evolving and updated with the latest trends. All to help you find the perfect style for you.

Diversity

Besides all the seats, legs, and tabletops to choose from, you can make some extra options for your chair. Different colours and materials or let your chair swivel with our swivel plate Cpinn.
